StandardsScore™ is your constant connection to your child's classroom!

Your Family account password provides access to the following:

- Individual student grades,

Reports

There are three reports you can view for each class: **Detail**, **Summary**, and **Standards**. Each Report gives more detailed information about the scores a student received. The **Detail Report** shows the scores for each assignment, a total to date, and any unique or defined comments the teacher added. The **Performance View Report** shows the scores for each of the standards attached to assignments as well as a total to date. The scores are color coded to match the Defined Comments (such as an assignment was listed as late or missing) a school uses. The **Summary Report** shows the grades for each Category (Homework or Tests, etc.), the total to date and any Defined comments.
