

A PARENT'S Role in Education

It is our privilege to work with parents in the education of their child/ren. Moreover, we recognize that it is the parents' right and duty to become the primary role models for the development of their child's life---physically, mentally, spiritually, emotionally, and psychologically.

Your partnership with us at St. Anthony School is essential for your child's development. Your child needs constant support from both parents and faculty in order to develop his/her moral, intellectual, social and cultural gifts. We believe that by establishing a relationship based on mutual respect between parents and teachers will help your child to become the best person s/he can be.
